EXPERIENCE

SENIOR PRODUCT DESIGNER & TEAM LEAD /EDRONE — NOV 2022 - MAR 2026

AI-powered marketing automation and CRM for e-commerce, serving 3,000+ clients across Poland and Brazil. Rebuilt 99% of the product over 3.5 years across all core areas, creating the foundation that made freemium possible.

- Designed freemium model end-to-end: signup, onboarding, integration, activation, and Stripe paywall. **4,657 accounts in 10 months, 78% activation rate, 8.4% paid conversion, CAC reduced 20x vs sales-led model.**
- Unified 5 legacy newsletter types into one builder. **77% adoption within the first week.**
- The team's North Star metric: cut median time to first order driven by edrone from **44 to 5 days (9x faster).**
- **Built design system from scratch: 50+ components** in Storybook. Prototype-driven handoffs enabled developers to own features end-to-end without designer involvement.
- Led the design team for over two years, growing it from solo to three: Senior Product Designer, UX Researcher, and Senior Product Data Analyst. The team owned all product design, research, and data analysis across the platform.
- Shipped production frontend code independently in the final six months, unblocking dev bottlenecks on smaller features.

PRODUCT DESIGNER /DEEPSOLVER — NOV 2020 - OCT 2022

Sole designer across two B2C SaaS products for poker strategy training, both still live and generating revenue. Took both from zero to launch: research, UX, UI, design system, and ongoing feature development.

UX DESIGNER /EQ SYSTEM — SEP 2019 - JUL 2020

Designed modular ERP, CRM and HRM systems across desktop, tablet and mobile for enterprise clients.

JUNIOR UX/UI DESIGNER /INVENTIVE SOFTWARE — JAN 2019 - JUN 2019

Designed interfaces for real estate and e-commerce platforms as first UX/UI role.

EDUCATION

BACHELOR OF MANAGEMENT /UNIVERSITY WSB

2019 - 2020

Business Psychology, focus on consumer behaviour and decision-making.
