EXPERIENCE

SENIOR PRODUCT DESIGNER & TEAM LEAD /EDRONE

NOV 2022 – MAR 2026

AI-powered marketing automation and CRM for e-commerce, serving **2,500+** clients in Poland and Brazil. Rebuilt **most of the product** over 3.5 years, working across the boundary between design and engineering.

- Built **edrone's first self-serve channel** at a company that had sold only through Sales for ten years: freemium signup, onboarding, activation, paid conversion. **5050 stores in 11 months**, no salesperson, 7.8% paying, adding 16% to a decade-old paid base.
- Rebuilt signup in **5 hours**, diagnosis to production: **+200% conversion**, 0.75% to 2.25% of unique visitors.
- **Shipped production frontend code with Claude Code, Codex, and v0**, unblocking dev bottlenecks.
- **Contact identification**: automations only reach contacts the platform has recognised, 3% of the base for the median store. Designed a recurring sequence that lifted it **+32%**, on by default, and **95% of stores left it on**.
- **Built the design system from scratch: 50+ Storybook components** with interactive prototypes as specs, and the structure Codex builds from.
- The channel's North Star: median time to a store's first edrone-attributed sale, **35 days to 5**.
- Led the design team for two years, solo to three, and presented strategy and roadmap to executives.

PRODUCT DESIGNER /DEEPSOLVER

NOV 2020 – OCT 2022

Sole designer on Deepsolver and PLO Genius, two poker strategy tools built from zero: research, UX, UI, two design systems. PLO Genius: **10+ B2B API clients** as its main revenue channel, **120+ paying subscribers**, still live 4+ years later.

UX DESIGNER /EQ SYSTEM

SEP 2019 – JUL 2020

Designed modular ERP, CRM and HRM systems across desktop, tablet and mobile for enterprise clients.

JUNIOR UX/UI DESIGNER /INVENTIVE SOFTWARE

JAN 2019 – JUN 2019

Designed interfaces for real estate and e-commerce platforms as first UX/UI role.

EDUCATION

BACHELOR OF MANAGEMENT /UNIVERSITY WSB
2017 – 2020

Business Psychology, focus on consumer behaviour and decision-making.
