

Olaf Otrząsek

SENIOR PRODUCT DESIGNER

I just like making things better, and I've been doing it as a **product designer for over 7 years**. I find opportunities by digging into data and talking to people, and for the past year I've shipped them with Claude Code. Since edrone had no PMs, I also took on that role, so I covered the product from vision to launch.

EXPERIENCE

SENIOR PRODUCT DESIGNER & TEAM LEAD / EDRONE

NOV 2022 — MAR 2026

AI-powered marketing automation and CRM for e-commerce, serving 7000+ stores in Poland and Brazil.

- Co-owned **product strategy** and rebuilt the whole product over 2 years to introduce the **first product-led channel** after ten years of sales-led growth, reaching **5050 stores in 11 months** with **7.8% converting to paid**.
- Led **product discovery** based on user interviews and data analysis in Amplitude and Tableau.
- **AI** turned me into a designer who **ships code**, whether redesigning **signup in 5 hours** with Codex to increase conversion by 200%, or building a **UX-audit agent** that walks flows as user personas to examine their journeys.
- Built the **design system** from scratch, with **50+ Storybook components** built to accessibility standards and interactive prototypes as specs. Two years later, Codex could build from it directly.
- Recruited and led the **multidisciplinary design team**, growing it **from solo to four**.

PRODUCT DESIGNER / DEEPSOLVER

NOV 2020 — OCT 2022

Sole product designer on Deepsolver and PLO Genius, two **startup** products **built from zero** across research, UX and UI. Four years on, PLO Genius, the first PLO solver to run in a browser, has **120+ paying subscribers** and **10+ platforms** licensing the engine, its main revenue channel.

UX DESIGNER / EQ SYSTEM

SEP 2019 — JUL 2020

Designed modular ERP, CRM and HRM systems across desktop, tablet and mobile for enterprise clients.

JUNIOR UX/UI DESIGNER / INVENTIVE SOFTWARE

JAN 2019 — JUN 2019

Designed interfaces for real estate and e-commerce platforms as my first UX/UI role.
