EXPERIENCE

SENIOR PRODUCT DESIGNER & TEAM LEAD /EDRONE

NOV 2022 - MAR 2026

AI-powered marketing automation and CRM for e-commerce, serving 2,500+ clients across Poland and Brazil. Worked across the boundary between design and engineering, shipping production code via Claude Code, Codex, and vO. Rebuilt 99% of the product over 3.5 years, informed by user research and product data.

- Designed and shipped the **Stripe paywall and full subscription flow**: signup, onboarding, integration, activation, and paid conversion. **4,657 accounts in 10 months, 8.4% paid conversion** (adding 16% to edrone's 10-year paid base).
- **Shipped production frontend code using Claude Code, Codex, and vO**, unblocking dev bottlenecks across features and UI improvements.
- Translated complex automation logic, segmentation rules, and edge cases into clear, polished interfaces. Contacts Identification redesign: **95% adoption, +32% new user identification rate**.
- **Built design system from scratch: 50+ components in Storybook** with interactive prototypes as specs. Included subscription, billing, and gating components. Gave AI tools like Codex structured components to build from.
- The team's North Star metric: cut median time to first order from **44 to 5 days (9x faster)**.
- Independently led the design team for over two years, growing it from solo to three (Senior PD, UX Researcher, Senior Data Analyst). Presented strategy and roadmap to executives.
