Olaf Otrząsek Senior Product Designer with 7+ years in B2B SaaS.
I let the data find the opportunity. Then I design the experience.

EXPERIENCE

edrone **Senior Product Designer & Team Lead**

REMOTE / CRACOW, PL NOV 2022 - MAR 2026

AI-powered marketing automation and CRM platform for over 3,000 e-commerce clients across Poland and Brazil.
Joined when the product had fundamental UX and experience issues and no path for users to navigate it independently. Rebuilt 99% of the product over 3.5 years across all core areas: newsletter creator, automation flows, contact segmentation, onsites, multichannel inbox, contacts activation, signup flow, and analytic dashboards, creating the foundation that made freemium possible.

- Designed freemium model end-to-end: signup, onboarding, integration, activation, and Stripe paywall. 4,657 accounts in 10 months, 78% activation rate, 8.4% paid conversion, CAC reduced 20x vs sales-led model.
- Unified 5 legacy newsletter types into one builder. 77% adoption within the first week
- The team's North Star metric: cut median time to first order driven by edrone from 44 to 5 days (9x faster).
- Built design system from scratch: 50+ components, shipped in Storybook with prototype-driven handoffs that enabled developers to own features end-to-end, adopted across engineering
- Led the design team for over two years, growing it from solo to three: Senior Product Designer, UX Researcher, and Senior Product Data Analyst
- Shipped production frontend code independently using Codex and Claude Code in the final six months, removing dev bottlenecks on smaller features.

Deepsolver & PLO Genius **Product Designer**

REMOTE / WARSAW, PL NOV 2020 - OCT 2022

Sole designer across two B2C SaaS products for poker strategy training, both still live and generating revenue. Took both from zero to launch: research, UX, UI, design system, and ongoing feature development.

EQ System **UX Designer**

KATOWICE, PL SEP 2019 - JUL 2020

Designed modular ERP, CRM and HRM systems across desktop, tablet and mobile for enterprise clients.

Inventive Software **Jr UX/UI Designer**

REMOTE, US JAN 2019 - JUN 2019

Designed interfaces for real estate and e-commerce platforms as first UX/UI role.

EDUCATION

University WSB **Bachelor of Management**

KATOWICE, PL 2017 - 2020

Business Psychology, focus on consumer behaviour and decision-making.
